

About the Author

Ron Berrus

Ron was born and raised in New York State on a five generation dairy farm in the foothills of the Adirondack Mountains. Graduating from SUNY in forestry, he moved to Pennsylvania in 1974 for further education. He never left Penn Woods! He and his wife Valorie have four children. He is an avid all-season outdoorsman enjoying, with his family, photography, running, hiking, camping, and especially hunting.

A Word from Ron.....

Hunters Banquets, Wild Game Dinners, Sportsmens Outreach...or whatever name you use to describe it, it's all about evangelism. It is my desire to use our common interest in hunting as a means to share the gospel of Christ. I have done my best to produce good quality programs that are full of facts, photography, humor and hunting stories. This builds a bridge to the outdoorsmen and women who attend. But the reason we meet together is to share Christ with the lost. I am committed to serving Christ by serving you with honesty, integrity, humility, and clarity. Your advice and counsel is welcomed and appreciated. May God's good hand be upon you as you serve Him by reaching the lost.

Ron

PROGRAM #1 – Revised 2002

White Flags

and White Patches

Taking the hunter from Whitetail country in the East, to Pronghorn country in the West, this journey highlights the comparisons and contrasts in the habits and habitat of both species. It concludes with suggestions for making your first Western Pronghorn hunting trip a treasured memory for a lifetime.

PROGRAM #2 – New for 2003

Whitetails... on my mind

This brand new Whitetail program includes Whitetail life cycle, senses, habits, keys to antler growth, and a look at some of North America's biggest Whitetails ever. A combination of beautiful photography, solid science, and common sense; it's great for the beginner and novice alike.

"...something for everyone who longs to know more about North America's favorite big game species"

PROGRAM #3 – New in 2001

"Let's Talk Turkey"

Watch the Wild Turkey through all four seasons of the year. It includes live-recorded calling, actual turkeys responding, hunting situations, and basic instructions for Fall and Spring seasons. It includes the "Turkey Hunter's Ten Commandments" and a special section on hunting safety.

"...this program is a little biology, a little history, a little hunting and instruction... and a whole lot of fun!"
